

SICO Socialiser Tables[®]

Designed to meet your facility's ever-changing needs, SICO Socialiser tables are perfect for use as an AV stand, concessions table, lectern or for perimeter seating, standing and conferences.

They come in three distinct models:

- 1) **The All-A-Round:** 12 height adjustments in a single table!
Heights start from 29" (74cm) and increase in 1" (2.54cm) increments up to 41" (104cm).
- 2) **The Sit-A-Round:** 27" (69cm) single height table designed for social seating.
- 3) **The Stand-A-Round:** 41"(104cm) single height table designed for pre-function events where guests remain standing.

Features of our Socialiser tables include:

- SICO Armour Edge[®] together with a MDF core and high pressure laminate protect the table top while also making it easy-to-clean and sanitary.

- Gas spring assist on the All-Around table allows fingertip pressure to change heights.

- No caddy required: One person can easily roll multiple tables into service or storage.

- Four locking, non-marking wheels are constructed of reinforced nylon.

- Minimum storage space required:
Tables nestle together compactly thanks to the unique folding top design and inter-locking legs. Each additional unit requires only 15.24cm (6") of extra storage space.

Why buy SICO? - Features of the SICO Table Seating Unit

- Superior quality materials and efficient design means easier handling and longer life:

- Tamper proof expansion rivets secure frame onto a sturdy MDF (Medium Density Fibreboard) core. There are no screws to work loose.

- Aircraft lock-nuts used at all main pivot points remain tight and can't work loose.

- SICO Armour-Edge® used on our table tops is incredibly hard-wearing. The table core is hermetically sealed for moisture resistance, longer life and sanitary purposes (no cracks or seams to trap food).

- SICO table frames use 14-gauge structural steel and the one-piece frame construction does not rely on the table top for strength.

When an area cannot be dedicated for one sole purpose and lack of space is an issue, SICO's easy to use Table Seating Units (TSU's) are the answer. The mobile, folding and back again - within minutes. The units simply roll into back into storage until the next time. Our tables are designed to make life easier by saving you precious time, space and, ultimately, money.

and lack of space is an issue, SICO's easy to use Table Seating Units (TSU's) are the answer. The mobile, folding and back again - within minutes. The units simply roll into back into storage until the next time. Our tables are designed to make life easier by saving you precious time, space and, ultimately, money.

SICO Europe is proud to be the original British manufacturer of Table Seating Units!

- One-piece stool tops are almost indestructible and withstand years of everyday use. They are available in 6 different colours and sizes 25cm (10") or 33cm (13").

- Fixed stools mean you do not need to allow extra aisle space for movement of chairs. They eliminate aisle blockage and 'horseplay' that can occur with standard chairs.

- Grey powder-coat finish is applied to legs and table frames for added durability and ease of cleaning, whilst still looking good!

- Non-marking neoprene glides on the legs protect your floors.

- Easy wipe-clean surface means tabletops are quick to clean with minimum effort required.

- Tough 18mm thick table tops with high pressure 1mm laminate are highly specified for durability and longevity.

- Operating instructions and serial numbers are attached to every table for convenience and easy identification.

- Compliant with EN1729 and BS4875 standards for strength and stability

- Dual 14-gauge tube design provides extra strength and durability.

- Open walkway between seats means there are no "stumble bars" to create a hazard.

- Non-marking 10cm (4") wheels allow smooth, easy table handling.

- Minimum storage space required. SICO TSUs store upright and nestle together to ensure that only the minimum amount of storage space is needed.

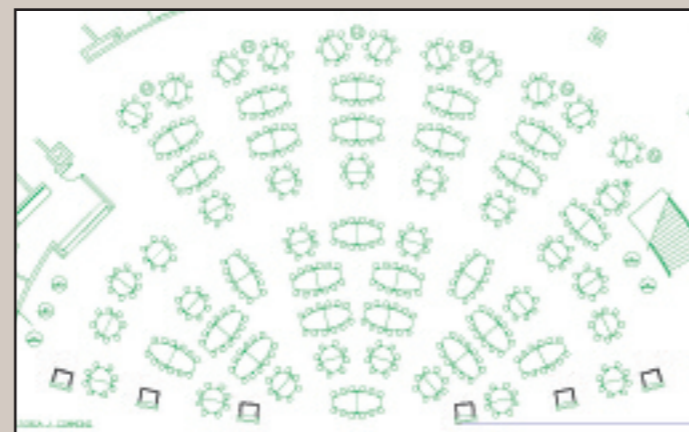

- Easy to handle units. Our 'floating fold' design includes a torsion bar assist system making our units easy to open and close.

- 1cm (3/8") centre gravity lock bar prevents the centre of the table being raised if anyone sits on the end. The bar is easily released from either side.

- Optional backrests are available* for extra comfort and added flexibility for meetings and classroom usage. (* Not for Communicator series)

FREE Space Analysis Service

SICO's specially trained staff can produce layout drawings on request to show how our tables (and other products) will fit into your facility. There is no charge for this service.
