

## Insta-Theatre adds finishing touch to purpose built school.

**A new purpose built school in Nottingham was not complete without a SICO Insta-Theatre in their main hall. Commenting on the build is Adele France the School Business Manager.**

In moving into our new purpose built school we needed a solution for our recess in the main hall which would allow us to continue performances on stage; having come from the old facility which housed a very good production facility. After much searching we found the 'Insta-Theatre' by SICO which would offer the solution we were looking for.

It was by no means an easy project as the area was not a typical production sized space. However, after initial contact with SICO the regional sales expert, Frazer Perry visited for a lengthy discussion and pre-inspection of the school site. We were able to look at our requirements and how the Insta-Theatre would work for us. From that point onward we had regular contact,

visits and updates on progress regarding manufacturing (including any issues which we were able to resolve to meet deadlines). The customer service was very good indeed!

In came the expert fitters from the U.S. and it was great to see the whole thing being put together on site at the school. It certainly added a finishing touch to the main hall and, the beauty of it is, when it's not in use it all folds away behind curtains. Very tidy!

We opted for a full solution including new stage platforms, safety rails and steps and found the project cost good value for money. We have been able to use the staging flexibly around the school for all types of events including our performing arts summer BBQ where our young musical performers are able to entertain in our atrium. It also came in very handy for our unexpected recent visit by Gordon Brown, Prime Minister when we hosted a Labour Party community event with live link interview with Sky TV.

**Flexibility at its best.**

School Business Manager  
(Support Services Leader)*

**“ Our site team and performing arts team were trained on the correct operation of the Insta-Theatre by SICO so no problems at all regarding damage caused by incorrect handling.**

**We're now 18 months on and the theatre is being used for school productions and other school events. Our experience of the theatre is its a simple, neat solution which is quick and easy to use to get in any space.** ”
